

Port de Barcelona

# Barcelona Cruise Facilities // **2011**

*Europe's Leading Cruise Port*

The modern cosmopolitan city of Barcelona, capital of Catalonia, has a wide variety of cultural, architectural and leisure attractions that make it one of the most highly-visited cities in the world.

Thanks to its charm and Mediterranean climate the city receives millions of tourists every year, a figure which is rising along with the steady growth of its passenger cruise industry.

The opportunities for tourist in this magnificent city are unlimited. The city and its surrounding area include countless tourist destination-beaches, countryside, towns and villages with their own charm and history-all within easy reach for those who wish to experience the culture of the rich region which is Catalonia.

The Port of Barcelona, located in the heart of the city, has contributed to the attraction of tourist by modernizing its facilities, welcoming almost **2.350.000 passengers in 2010**.

Years ago the Olympics showed the city and the port to the world. Years go by and **now the Port of Barcelona is the European leader and the Mediterranean** turnaround port par excellence. In fact, we are the fourth World top cruise homeport after the Caribbean ports.

Since we have **seven specialized cruise terminals and highly trained professionals** in our Port Community, we are able to face up a big challenge for the current year. We are welcoming three "new generation" cruises. The Port Community is ready to operate with the highest level of efficiency the Norwegian Epic, the Liberty of the Seas and the Carnival Magic.

Safety and security are of the utmost importance for us. **Our terminals fully comply with the requirements set forth by the IMO.**

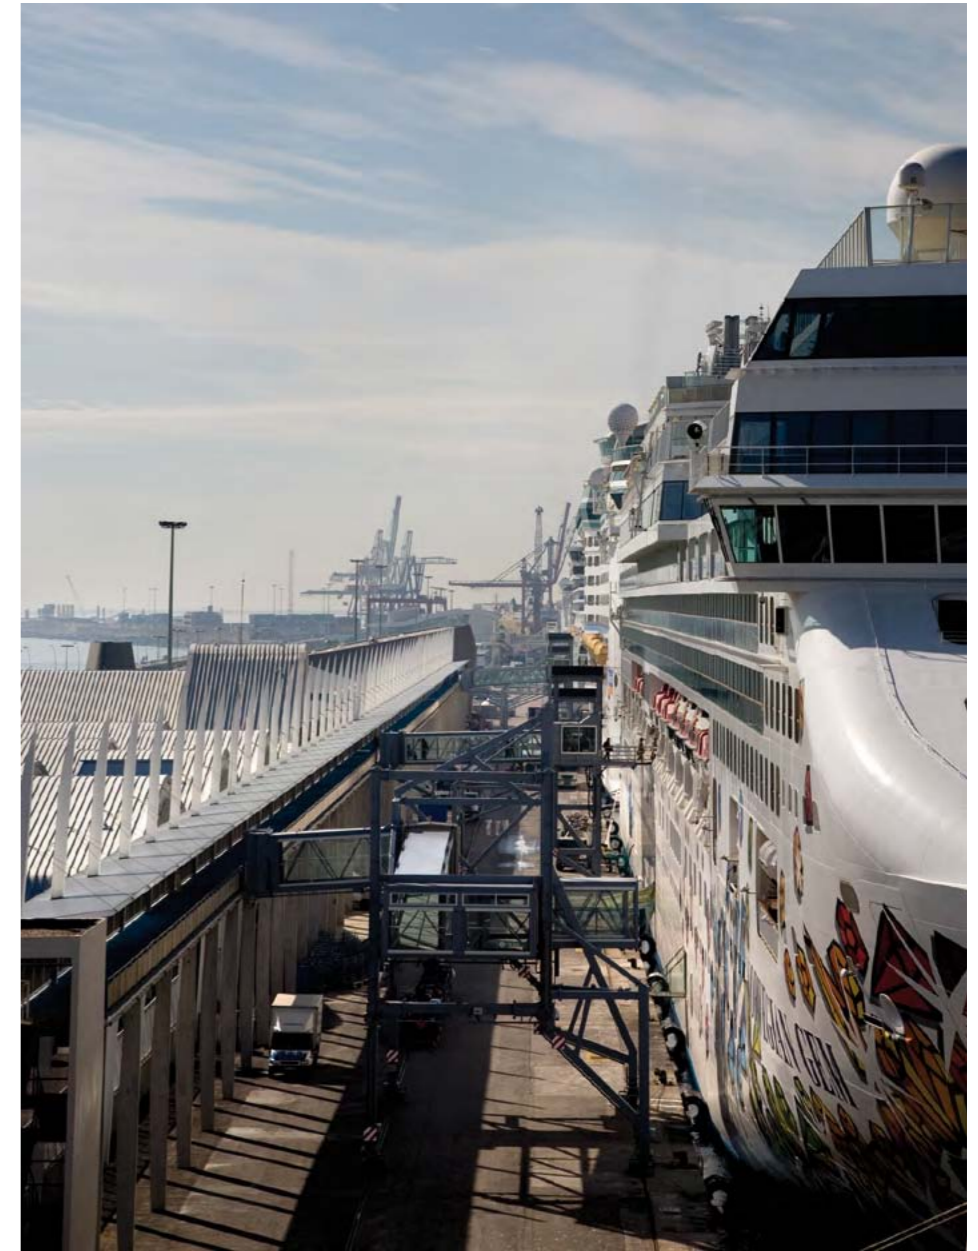

Creuers del Port de Barcelona, SA operates 5 cruise terminals, of which 4 as a concessionaire. Palacruceros, the Carnival group terminal, started operating in 2007.

Both companies have invested during the last decade 80.3 million euros to extend and improve the cruise facilities.

**Barcelona is co-founder and member of the Medcruise Association.** Nowadays the Port of Barcelona holds the Senior Vicepresidence of the Association of the Mediterranean Cruise Ports.

## TERMINAL A

Due to fast growing number of home port passengers and the bigger capacity of the ships, Creuers del Port de Barcelona S.A., the private current concessionaire, decided to demolish the former 15 years old Terminal and build a new one prepared to operate turnarounds of mega cruise ships.

With a total investments of over 15 million euros, the new Terminal A has been inaugurated in April 2008, just in time 14 months after works started. It has a total of 6.200 sqm. Divided in two main sections: check-in with 44 counters and luggage claiming area with 4 luggage conveyors. It has been designed under the last requirements concerning security, comfort, fast processing and architectural image and fully complying with International Ship and Port Security Code (ISPS).

Mobile gangways specially designed for the new generation of ships (Epic, Oasis of the Seas, Carnival Dream) and luggage conveyors, ensure passengers not to be mixed with trucks, forklifts and handling staff.

### General services

- Police - Immigration • Metal detectors • X-Ray machines • Air conditioning • 2 Passenger gangways • Luggage conveyors • Public telephones • Foreign exchange • Duty free shops • Souvenir shops • Bar - Restaurant • VIP Lounge • Parking area for buses • Shuttle bus to city centre • Taxi rank

### Ship services

- Fresh water supply with a loading capacity of 25 tonnes / hour per hose. Combined capacity of up to 500-550 tonnes/ hour. • On-board ID telephone connections • Computer connections for inbound operations • Waste and garbage disposal • Sewage disposal • Recycling

### Characteristics

WHARF	INDOOR AREA	BERTHING LINE
ADOSSAT	6.500 m <sup>2</sup>	700 m (A+B)
SHIP LENGTH	DRAUGHT	WHARF WIDTH
UNLIMITED	12 m	22 m
WHARF HEIGHT	TURNAROUND	DISTANCE FROM THE CITY
2.1 m	4.500	2 Km

## TERMINAL B

This turnaround cruise Terminal of Creuers del Port de Barcelona S.A., inaugurated in April 2005 with a total investment of over 10 million euros, was designed to operate home port calls of mega cruise ships up to 150.000 tones and 4.500 passengers. Terminal B has a total of 6.500 sqm. divided in two main areas: check-in area with 46 counters and luggage claiming area with 4 luggage conveyors. It offers the last requirements concerning security, comfort, fast processing and architectural image, and it is equipped with 2 mobile gangways to avoid passengers crossing pier traffic.

This terminal B was designed by Miami architectural firm BEA International, fully complying with International Ship and Port Security Code (ISPS).

A continuous fix gangway along the pier of 500 mts. connects Terminal A and Terminal B, enabling easy home port operation of Oasis of the Seas class cruise ships by splitting its 6.000 passengers through the 2 Terminals.

### General services

- Police - Immigration • Metal detectors • X-Ray machines • Air conditioning • 2 Passanger gangways • Luggage conveyors • Public telephones • Foreign exchange • Duty free shops • Souvenir shops • Bar - Restaurant • VIP Lounge • Parking area for buses • Shuttle bus to city centre • Taxi rank

### Ship services

- Fresh water supply with a loading capacity of 25 tonnes / hour per hose. Combined capacity of up to 500-550 tonnes/ hour. • On-board ID telephone connections • Computer connections for inbound operations • Waste and garbage disposal • Sewage disposal • Recycling

WHARF HEIGHT	TURNAROUND	DISTANCE FROM THE CITY
2.1 m	3.800	2.5 Km

## TERMINAL D

The Palacruceros is a state-of-the-art facility of almost 10.000 sqm in two main floors with two airbridges designed by Studio Vicini. Among its services, it is to enhance the VIP lounge, the Childrens room, a shopping center, the Palacé with its wonderful sea view terrasse or the Crew Lounge, all areas specially created to satisfy both needs of embarking passengers and crew members.

The total amount invested in its construction, which has been wholly financed by the italian company Costa Crociere S.p.A., has been 12 million euros.

The terminal has preference for Carnival Corporation ships under a neutral management.

### General services

- Police - Immigration • Metal detectors • X-Ray machines • Air conditioning • 2 Passanger gangways • Luggage Handling • Meet & Greet-Ground service • Public telephones • Foreign exchange • Duty free shops • Souvenir shops • Bar - Restaurant-Terrasse • VIP Lounge • Children's room • Crew members rom • Internet point • Parking area for buses • Shuttle bus to city centre • Taxi rank • Parking area for private transfers

### Ship services

- Fresh water supply with a loading capacity of 25 tonnes / hour per hose. Combined capacity of up to 500-550 tonnes/ hour • On-board ID telephone connections • Computer connections for inbond operations • Waste and garbage disposal • Sewage disposal • Recycling

### Characteristics

**TERMINALS WTCB**

The state-of-art World Trade Center is located at the Barcelona Wharf, with two international cruise terminals and a total of 720 meters of berthing line. The North Terminal is prepared to give service to medium-size vessels and South Terminal can receive two ships, the biggest one up to 253 meters long. Both terminals are located at walking distance to city center.

Total investment of Creuers del Port de Barcelona, SA, amounts 14.5 million Euros.

**SERVICES**

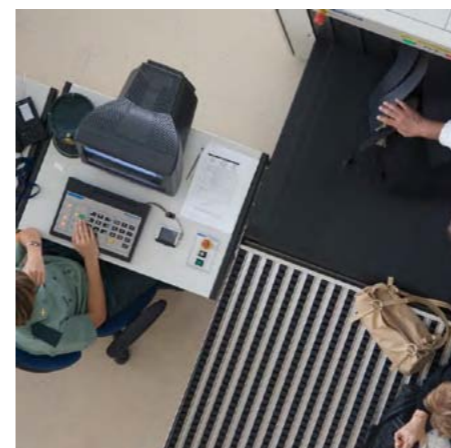

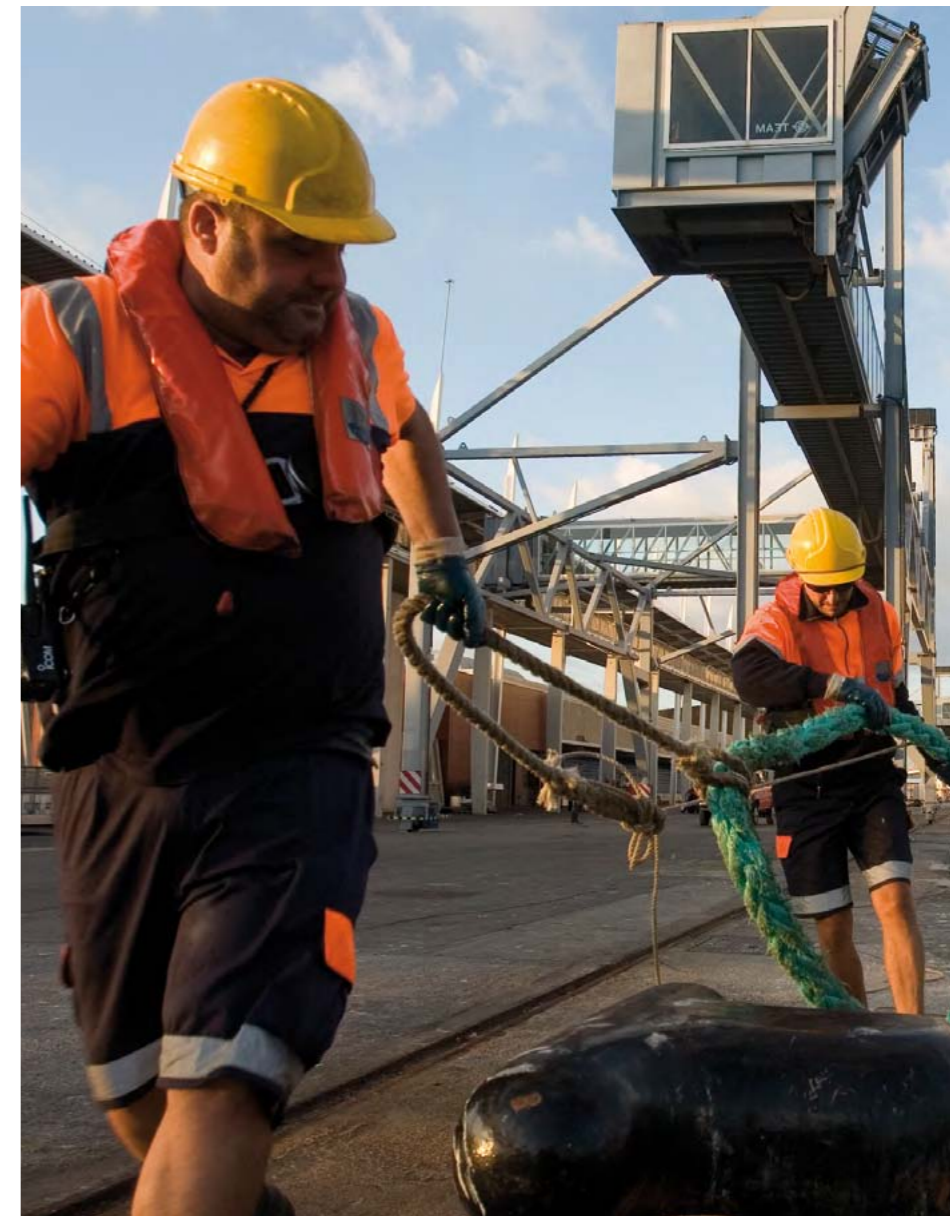

Port facilities adapted to the operating needs of our clients, highly trained personnel with máximum security in all operating procedures of ships as well as collaboration among the authorities and security forces are some of the factors that make our port safe and reliable.

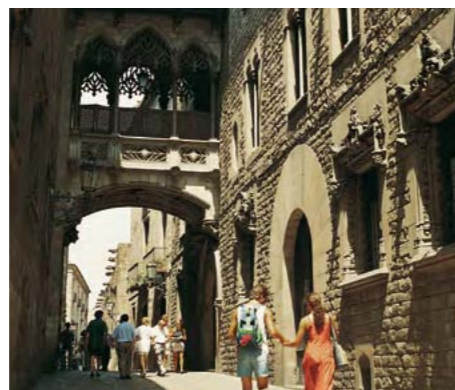

In our terminals we have developed the highest standards of security. We follow strict guidelines to guarantee all cruise needs in terms of safety and security. Implementation of ISPS Code to SOLAS is one of our strengths.

We have successfully exceeded the inspection of the new European Union Regulation (CE) 125/2004, which essentially states that European ports have to apply measures which the ISPS code stated as mere recommendations, thus increasing the required level of security.

One of the main environmental matter for the ports is the reception of ships waste. Thus, the Port of Barcelona is prepared and equipped with specialized facilities devoted to collect different kind of waste.

For Marpol I (hydrocarbon liquid), II (chemicals), IV (black and grey waters) waste there is a certified treatment plant located at the port area, and for Marpol V (rubbish and cargo) waste there is also a certified facility.

# BARCELONA

## Barcelona, a lifestyle!

Barcelona, the capital of Catalonia, is one of the leading tourism destinations and the foremost cruise port in Europe. The city provides a unique experience to the visitor: mild climate, a vibrant cultural scene, fine shopping, rich gastronomy and not forgetting the people of Barcelona, always ready to help newcomers feel welcome.

The variety of sightseeing tours include the Catalan Art Nouveau (Modernisme) masterpieces (the Sagrada Família Basilica, Park Güell, Casa Batlló and Casa Milà), the Gothic Quarter which is one of the best preserved medieval enclaves in Europe, the world famous boulevard La Rambla, the Montjüic area (MNAC, Joan Miró Foundation, Olympic Ring), the Picasso Museum...

For those who love shopping, Barcelona offers a 5 kilometre-long Shopping Line, Europe's largest open-air shopping area: a kaleidoscope of imagination and quality which transforms the city into a major shopping showcase accessible to everyone. Barcelona's characteristic urban design offers an endless series of retail outlets which invite you to stroll and shop as you explore the city.

Gastronomy is one of the areas in which Barcelona really shines. Mediterranean diet, made from seasonal produce, comes to our restaurants prepared by the skilful hands of world renowned chefs. Barcelona has 20 Michelin-starred restaurants which feature in the prestigious Michelin Guide.

*“Barcelona is one of the 10 cities in the world which must be visited once in a lifetime”*

National Geographic Magazine

### Barcelona is culture

- 2,000 years of history
- Legacy of different civilizations: Iberians, Romans, Arabs, Christians
- Capital of Catalan Art Nouveau (Modernisme). Antoni Gaudí (1852-1926)

### Architecture and urban planning

- 9 World Heritage Sites (UNESCO)
- Royal Institute of British Architects (RIBA) Gold Medal awarded to Barcelona for its urban regeneration
- The Eixample district: Modernista buildings open air museum

### City of artists and geniuses

- Antoni Gaudí, Pablo Picasso, Joan Miró, Antoni Tàpies, Josep Carreras, Montserrat Caballé, Ferran Adrià

### Cultural dynamism

- 3 concert halls, 66 museums, 39 theatres
- 80 music and theatre festivals and seasons
- Trend-setting festivals: Primavera Sound, SONAR, International Jazz Festival
- New Design museum (Disseny Hub Barcelona) to open in 2011

### A walkable city

- Compact historic centre
- Mild climate, open-air terraces all year round
- Walks along the seafront and beaches

### Gastronomy

- Mediterranean cuisine: fresh seasonal products
- 20 Michelin Guide starred restaurants
- Tapas restaurants: miniature gastronomy
- “La Boqueria” market on La Rambla

### Shopping

- Walking – shopping – visiting
- The Barcelona Shopping Line: 5 km of architecture, culture, shops and gastronomy
- Tax free: VAT refunds in the centre of Barcelona
- Leading world and local brands

### Sport

- Sport clubs with a century-old tradition
- European and world championships and the 1992 Summer Olympic Games
- Landmark events: Formula 1 GP, ATP Tennis Tournament, MotoGP, Marathon...
- Futbol Club Barcelona: the city's sporting ambassador around the world

### Unique experiences: Barcelona Premium

- 11 5\*GL hotels, 8 5\*hotels
- 20 Michelin starred restaurants
- Unique experiences: drive a Formula 1 car, gain VIP access to F.C. Barcelona matches, take a helicopter ride over the city, and take a private tour of a modernista house designed by Gaudí...

### New projects

**2011-2012**

**2014.**

New Marine Zoo & refurbishment of Barcelona Zoo

D.O. Penedès

A vinicultural zone **40 km from Barcelona**, is one of the most important land producing prestigious wines and cavas. The main centers in the zone are Vilafranca del Penedès – where the visitor finds the VINSEUM, the Cultures of Wine Museum – and Sant Sadurní d’Anoia, the cava capital. The region offers a wide range of activities related with wine and cava products.

Colònia Güell

Catalonia offers a rich **industrial patrimony** related with technology and work, two of her most characteristics aspects.

Two examples:

**24 km from Barcelona**, Terrassa, with the headquarters of the Science and Technology Museum of Catalonia. **15 Km from Barcelona**, Santa Coloma de Cervelló, where is placed the Colònia Güell- consider as World Heritage by the UNESCO.

Sitges

Sitges, **35 km from Barcelona**, is an old and calm Mediterranean fishermen village. Lots of artists and visitors have been captivated by his bohemian and cosmopolitan character. Visitor breaths art in each corner of its old quarter. **Cau Ferrat**, home and atelier of Santiago Rusiñol, painter and writer, and the **Maricel Museum**, are two of the main centers showing the intense cultural life in the village during XIX and XX centuries, with works of art from important painters and sculptors as Picasso, Casas, Nonell, Mas I Fontdevila, Llimona, Zuloaga or el Greco and one of the best European forged iron collection.

## CATALONIA

*Catalonia, a Mediterranean and millennial destination*

Catalonia is a varied tourist destination, where traveler finds an adapted offer to each need or requirement. A rich land with thousand-year-old history and her own language and culture able to offer a great number of charms to the visitors: culture, nature, gastronomy, sports and many other possibilities.

A great welcome capacity and excellent equipments have covered Catalonia into a main tourist European zone.

Additional information:  
[www.catalunya.com](http://www.catalunya.com)

Montserrat mountain

Montserrat mountain, **60 Km from Barcelona**, is one of the most singular Catalonian landscape. The originality and grandeur of this protected natural space, the image of the patron virgin of Catalonia known as “**la Moreneta**”, the basilica, monastery, library and the famous children chorus converts this visit an indispensable one.

## BARCELONA Airport

The Barcelona airport is a modern and practical space that fully satisfies the requirements of passengers and companies. It has been consolidated as a crucial facility in the Mediterranean and Southern Europe. With the brand new Terminal T1, the airport is ready to welcome 55 million passengers and 90 operations par hour. This terminal has been designed as a center of distribution and connection of flights but also as a great center of services.

Among those services, there is a special one for the cruise passengers. Last May the airport of Barcelona arranged a large space in Terminal T1 for the check in of this kind of passengers. with 14 check in counters in a specific hall. This special operation has been done with the passengers flying with Air France, British Airways, KLM and Lufthansa.

In addition, since 2008, Delta Airlines executes the check in between port and airport. For this operation, the airport has set up 16 check in equipments in the port facilities. The luggage is transferred directly to the airport and controlled by the Automatic Treatment System of Luggage.

These different services offered to the cruise passenger makes easier the arrival or departure from Barcelona and raise the quality of the service.
